

Warning Horn & Flash Light

Model: IS-WHL-I

OVERVIEWS

The **IS-WHL-I** Warning Light and Siren Horn Combination is one of **Istromachine Mana**'s industrial signaling products, specifically designed for heavy-duty industrial applications. Featuring a rugged construction, excellent durability, and a fully enclosed housing, the IS-WHL-I ensures reliable operation in harsh environments exposed to dust, moisture, vibration, and extreme temperatures. By providing both visual and audible alarms, it enhances personnel safety and operational efficiency in industries such as mining, steel, cement, power plants, and bulk material handling facilities.

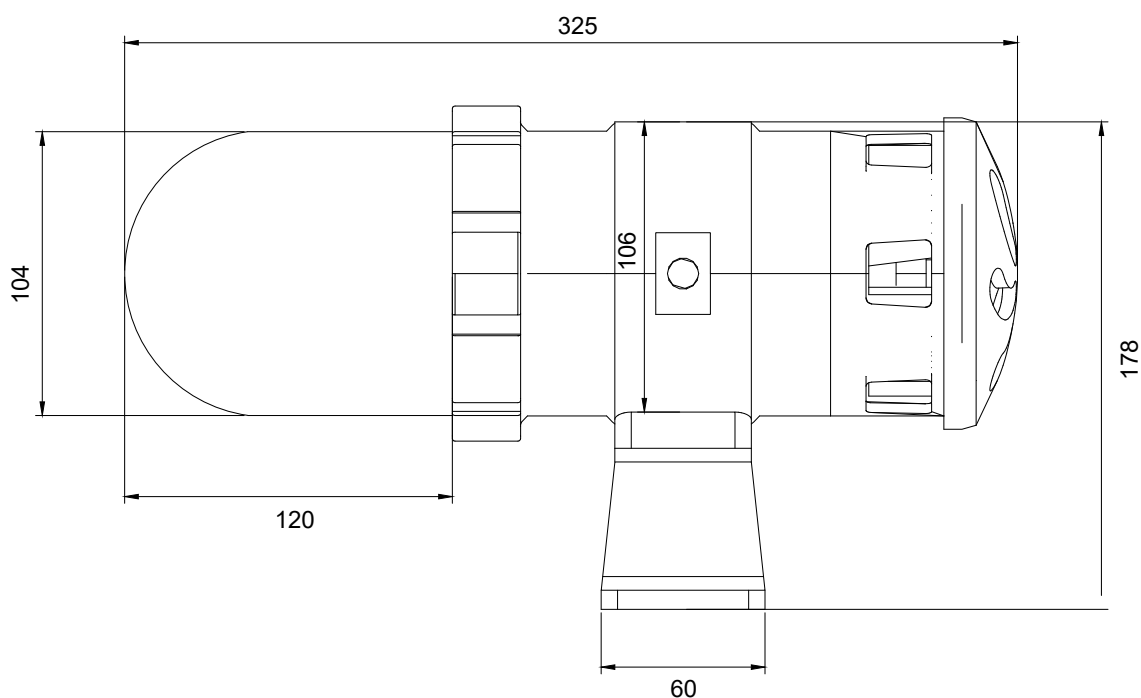

CHARACTERISTIC

- Perfect for Outdoor and Noisy industry environment
- Extremely Loud Siren
- 360-degree Horn for Better Sound Projection
- light-weight Chassis
- Adopt high-strength Aluminum-alloy precise shell
- High protective degree of shell, good sealing property
- 100mm bulb diameter with attractive appearance
- Lens Materials: Super Impact Resistance UV-protected Polycarbonate
- high visibility with special LED light distribution system

TECHNICAL DATA

Power supply	AC220	Application	Indoor- Outdoor
Enclosure	Aluminum	Weight	2.8kg
bulb material	polycarbonate	Mounting	Vertical or Horizontal
bulb Color	Red or Yellow	Ambient temperature	-20°C~ 50°C
Max Sound Range	300m	Relative humidity	0 ~ 95%
power	200w	Protection level	IP65

DIMENSION

Units : mm
